Heart surgery (cardiac surgery)

Heart surgery, or cardiac surgery, covers a range of heart procedures, including bypasses and valve surgery.

Bupa Cromwell Hospital provides cardiac services for both adults and children.

Why choose Bupa Cromwell Hospital for your heart surgery?

At Bupa Cromwell Hospital in London, our specialist staff include world-class heart specialists including surgeons, specialist cardiac nurses and technicians.

After your surgery, you’ll be cared for by our highly-trained nursing staff who specialise in cardiac care, first in the intensive care unit, and then in the high dependency unit. In both units, you’ll be closely monitored 24 hours a day. Later, you’ll be moved to the cardiac ward to complete your recovery.

During every stage of your recovery, you’ll be cared for by specialist professionals using the most up-to-date monitoring systems. These include pocket-sized monitors that allow you the freedom to move around more easily following your surgery.

Bespoke treatment plans

Bupa Cromwell Hospital staff work as a team to plan your treatment and follow-up care throughout your treatment and follow-up.

We offer a range of surgical procedures:
- Coronary artery bypass
- Valve replacement or repair
- Off-pump or beating heart coronary artery bypass
- Minimally-invasive coronary artery bypass
- Transcatheter aortic valve implantation

Additionally, rehabilitation services include a range of services to help patients recover including:
- Weight loss and activity advice before cardiac surgery
- Mobility and exercise programmes — increasing ability to exercise after surgery

How do I pay for treatment?

We welcome both insured and self-pay patients as well as company and embassy sponsored patients.
