Children's audiology

We treat children from birth up to 18 years of age who are experiencing disorders of the ear.

Children are referred because of concerns about hearing. Referral may be via your GP or consultant.

We offer various tests to determine how hearing works and whether it is a common condition in children that affects language delay, poor attention and safety. We also manage the condition of the ear.

We offer the following hearing tests for children:

- Play audiometry (hearing test for children)
- Visual reinforcement audiometry (VRA)
- Tympanometry to check for Glue ear
- Auditory brainstem response testing (ABR)
- Otoacoustic emission testing
- Pre-surgery assessment

Benefits of Children’s audiology at Bupa Cromwell Hospital

- State of the art facilities and equipment
- Specialist Paediatric Audiologists and Consultants
- Flexible appointment times
- Collaborative approach with speech therapy and other paediatric services.

Please note that we do not provide a paediatric intensive care unit at Bupa Cromwell Hospital. However, any deteriorating child will be quickly assessed and stabilised by a Resident Medical Officer (RMO) trained in paediatric intensive care, supported by on-call Paediatric Intensive Care Consultant, before being transferred to the most appropriate paediatric intensive care provider by the Children’s Acute Transport Service (CATS).
