Operating theatres

The main theatre complex located in the lower ground floor consists of four fully-equipped operating theatres. Two theatres have Laminar Flow which is particularly important for orthopaedic surgery. There are four anaesthetic rooms and a five-bed dedicated recovery area located next to the Intensive Care and High Dependency Units.

Our theatres are equipped to undertake complex major surgery including cardiothoracic surgery, neuro specialties and are staffed by a well-est team. Committed to providing the highest care, 24-hour emergency on-call cover team and a perfusionist.

Children are treated in the Rainbow paediatrics which adjoins its own dedicated intensive care unit.
