Genitourinary medicine or sexual health services

This specialty deals primarily with genital conditions and sexually transmitted diseases in both men and women.

Conditions we treat include:
- chlamydia
- emergency contraception
- genital warts
- gonorrhoea
- hepatitis A, B and C
- herpes
- pelvic inflammatory disease
- HIV
- HIV risk assessment of those who have had a high-risk exposure, or high-risk occupational exposure
- human papilloma virus or HPV
- genital warts
- herpes
- HIV
- HIV risk assessment of those who have had a high-risk exposure, or high-risk occupational exposure
- human papilloma virus or HPV

Benefits of genitourinary medicine

We provide quick access to specialists for:
- assessment
- diagnosis
- treatment
- surgery
- gynaecology
- counselling

Our on-site pathology lab means our tests service is reliable. Patients are informed of test results as they arrive via email, telephone, SMS or letter.

What if I need further treatment?

The genitourinary team can refer you quickly should you need to specialist services throughout the hospital including:
- dermatology
- gynaecology
- urology
- counselling
- psychology

Access to treatment

We accept referrals from patients, their GPs, or one of our hospital-based private GPs, embassies and hospitals.
